Online Payment Services**

**Sample Report**

May 2015

# PREFACE

**Market reports by yStats.com inform top managers about recent market trends and assist with strategic company decisions.**

A list of advantages

- yStats.com provides secondary market research: By using various sources of information we ensure maximum objectivity for all obtained data. As a result companies get a precise and unbiased impression of the market situation.
- Only reliable sources such as national and international statistical offices, industry and trade associations, business reports, business and company databases, journals, company registries and news portals are used as a basis for the analyses, statistical reports and forecasts.
- Our international employees research and filter all sources and translate relevant information into English. This ensures that the content of the original studies is correctly interpreted.
- yStats.com delivers all research results as PowerPoint files. All data can therefore be used directly for board presentations or be individually adapted.
- If required, yStats.com provides in-depth analysis for all research projects. Simply send us a request.

## **Terms of use and copyright conditions**

- This report is copyrighted. All rights reserved and no part of this report may be reproduced, stored in a retrieval system or transmitted in any form without the prior permission of the publishers.
- The information in this report does not constitute the provision of investment, legal or tax advice. Any views expressed reflect the current views of the original authors, which do not necessarily correspond to the opinions of yStats.com GmbH & Co. KG.
- The information in this report is provided for informational purposes only and without any obligation, whether contractual or otherwise. No warranty or representation is made as to the correctness, completeness and accuracy of the information given or the assessments made.
- We have taken every precaution to ensure that details provided in this report are accurate. The publishers are not liable for any omissions, errors or incorrect insertions, nor for any interpretations made from the document.

## LEGAL NOTICE

This report is subject to the Terms & Conditions of yStats.com GmbH & Co. KG, which can be found at yStats.com. By selecting a particular license, you agree to the Terms & Conditions which pertain to said license. Please be aware that any misuse of this product or any use not in accordance with the aforementioned Terms & Conditions will result in legal action.

The licensing structure is as follows:

- **A Single User License**: allows one (1) user to access the downloaded report.
- **A Site License**: allows up to ten (10) users of a company within a specified geographic area (i.e. country) to access the downloaded report.
- **A Global Site License**: allows up to ten (10) user of a company worldwide to access the downloaded report.

## Methodology (1 of 2)

- Our reports are compiled based on secondary market research. Secondary research is information gathered from previously published sources. Our reports are solely based on information and data acquired from national and international statistical offices, industry and trade associations, business reports, business and company databases, journals, company registries, news portals and many other reliable sources. By using various sources we ensure maximum objectivity for all obtained data. As a result, companies gain a precise and unbiased impression of the market situation.
- Cross referencing of data is conducted in order to ensure validity and reliability.
- The source of information and its release date are provided on every chart. It is possible that the information contained in one chart is derived from several sources. If this is the case, all sources are mentioned on the chart.
- Our reports include text charts, pie charts, bar charts, rankings, line graphs and tables. Every chart contains an Action Title, which summarizes the main idea/finding of the chart and a Sub Title, which provides necessary information about the country, the topic, units or measures of currency, and the applicable time period(s) to which the data refers. With respect to rankings, it is possible that the summation of all categories amounts to more than 100%. In this case, multiple answers were possible, which is noted at the bottom of the chart.
- Reports are comprised of the following elements, in the following order: Cover page, preface, table of contents, management summary (summarizing main information contained in each section of report) and report content (divided into sections and chapters). When available, we also include forecasts in our report content. These forecasts are not our own; they are published by reliable sources. Within Global and Regional reports, we include all major developed and emerging markets, ranked in order of importance by using evaluative criteria such as sales figures.
- If available, additional information about the data collection, for example the time of survey and number of people surveyed, is provided in the form of a note. In some cases, the note (also) contains additional information needed to fully understand the contents of the respective data.
- When providing information about amounts of money, local currencies are most often used. When referencing currency values in the Action Title, the EUR values are also provided in brackets. The conversions are always made using the average currency exchange rate for the respective time period. Should the currency figure be in the future, the average exchange rate of the past 12 months is used.
- The reports include mainly data from the last 12 months prior to date of report publication. Exact publication dates are mentioned in every chart.

## Methodology (2 of 2)

- This company profile is focused on online and mobile payment services provided by the company to merchants.
- Following the Management Summary, the chapter with the general company overview was included. General company overview contains a brief profile of the company, featuring legal name, country of origin, year established, current headquarters, other office locations, parent company, website, business overview (services offered), revenue/financials, countries/regions of operations, selected clients. Moreover, recent important news about the company were presented.
- The next chapter provides information about the payment transaction volume processed by the company.
- Afterwards, a description of online and related payment services offered by the company was included and sectors covered by these services.
- The last chapter provides an overview of payment methods offered by country or region.
- This profile is based mainly on data published in the previous twelve months. Whenever the information was obtained from company homepages with no exact date of last update being known, the month and year in which this information was accessed was included.
